

Aligned's Dallas Data Center Hub IX-Enabled

Aligned customers in the greater Dallas market can now reach DE-CIX Dallas, the market's largest carrier and data center neutral IX with access to nearly 100 networks.

About DE-CIX Dallas

DE-CIX, the operator of the world's largest carrier and data center neutral Internet Exchange (IX), with the largest IX in Dallas, provides networks a variety of ways to improve performance, reduce costs and reach the greatest number of carriers, ISPs, content, cloud and other networks through a port on its Internet Exchange Platform. DE-CIX Dallas is one of the top 20 IX's in North America, is the Southwest's fastest growing IX and is Open-IX OX1 certified.

Benefits of Connecting to DE-CIX Dallas

- Access Dallas' leading IX through a single cross connection from Aligned's Dallas Data Center.
- Leverage Aligned's turnkey Layer 2 connection to directly access DE-CIX Dallas.
- Reach nearly 100 networks through a single cross connect.
- One-port on DE-CIX's platform enables access to local peering networks including ISPs, cloud, content, carrier and enterprise.
- Multi-service interconnection capabilities enable access to leading cloud providers, direct access to Microsoft Azure Peering Services, enabling hybrid cloud connectivity solutions.
- Create private networking through Closed User Group interconnection solutions delivering reliability and security for the exchange of data.
- Benefit from a low latency, one ASN hop, SLA-backed connectivity solution that replaces best effort transit to critical networks.
- Leverage Aligned's connection to DE-CIX for remote peering and reach DE-CIX North American IX's located in Chicago, New York and Richmond with extended reach to over 2,100 European, Middle East and Southeast Asia networks through its globally interconnected ecosystem.

Through a connection to DE-CIX via Aligned's Dallas data center, companies can optimize their network interconnection, improve network performance and gain access to a diverse and reliable solution.
